

MULTIDISCIPLINARY INTERNATIONAL EXCHANGE PROGRAMME COMMUNITY DESIGN THINKING (12 CREDITS) + PROGRAMME SPECIFIC COURSES (18 CREDITS)

Welcome @ UCLL

UC Leuven-Limburg (UCLL) is one of the **major universities of applied sciences** in Flanders with over **14,000 students** and **9 campuses**.

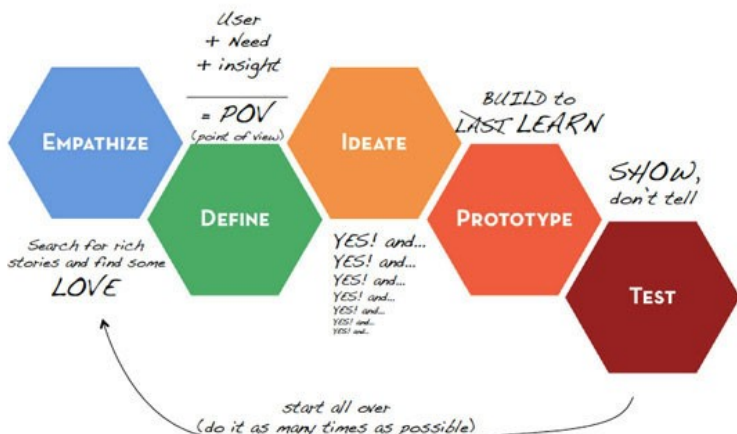

We take **internationalisation** at heart by, among others, attracting foreign students for our degree and exchange programmes. Over 500 UCLL degree students have an international background. Almost the same number visits us annually for a short or long exchange programme. The **attraction** of student cities such as Leuven or Hasselt is their relatively small size and the safe, green surroundings.

Our interdisciplinary international exchange programme Community Design Thinking is organised on the **Limburg campuses: Diepenbeek/Hasselt**, during our **spring semester**.

Community Design Thinking

Each society, organisation, school, project, person ... is confronted with **complex challenges**, challenges to which we cannot immediately respond with the right solution. We call them **<<wicked>> challenges**.

If we want to tackle these challenges we have to **learn to work multidisciplinary** and apply a **multiple perspective approach**. We have to be able to deal with constant change and continuously adapt our products ...; ... in other words: think like a « designer »

By Guido Kovalskys

WHAT CAN YOU EXPECT?

A **multidisciplinary, varied** and **challenging** programme!

During this **12 ECTS course** you will learn and experience the 'Design Thinking'-principles during classes, company visits and real life projects in **transdisciplinary international teams**.

This course can be **combined with programme specific subjects for 18 credits (see reverse side)** to complete a **semester exchange** of 30 credits.

WHO CAN JOIN?

- ◇ Bachelor or Master level students
- ◇ B1/B2 level of English required.

Where can you find information ?

- ◇ **Check our programmes in English**
